

Salts Gone[®]

Salts Gone: Instant Salt Remover and Protectant

Brief Description:

Salts Gone™ is a high-quality cleaning agent specifically formulated to eliminate salt residues and inhibit subsequent salt-induced damage. This agent addresses the challenges posed by salt contaminants prevalent in atmospheric and marine environments, as well as in commercial and industrial contexts.

Technical Description:

Salts Gone™ is a water-based, biodegradable, and pH-neutral cleaning chemical. It's designed to break the bond between various chlorides, including sodium chloride, potassium chloride, magnesium chloride, and calcium chloride. These chlorides are commonly found in air and seawater and are also used in many commercial and industrial settings, including road and runway treatments.

Dilution and Mixing:

Salts Gone™ is a concentrated cleaning agent designed to be diluted at a 1:100 ratio with water. For application, it is versatile enough to be used with a hose end sprayer, pump sprayer, pressure washer, automated wash system, or even manually by hand.

Usage Instructions:

1. Dilute Salts Gone™ according to the specified ratio.
2. Apply the prepared solution to the designated area; agitation is not required for salt removal.
3. Optional: during the initial rinse, scrub or wash the equipment to remove excess dirt and sand for a cleaner final appearance.
4. Rinse thoroughly.
5. Allow the surface to air dry. For expedited drying, use forced air or a manual wipe-down.

Features and Benefits:

Chelating agents: fight varying forms of salt.
Corrosion inhibitors: protect against corrosion.
Surfactants: clean dirt/grime.

Frequency of Use:

Salts Gone™ is designed for regular and frequent use as needed. Upon application, it imparts surplus electrons to the treated surface, safeguarding metal from immediate salt-induced corrosion.

Health and Safety:

HMIS RATING	
Health :	0
Flammability :	0
Reactivity :	0
Personal Protection :	A

Available Packaging:

- 32 oz Spray Bottle
- 1 Gallon
- 5 Gallon Pail
- 55 Gallon Drum
- 275 Gallon Tote
